SUMMARY

Information Systems student at Midlands State University with a passion for aligning technology with business strategy. Combines hands-on IT infrastructure experience with expertise in AI-powered analytics and automation. Final year project addresses a US\$1.2 billion problem in Zimbabwe's agricultural sector. Seeking opportunities in data analytics, systems analysis, or software development.

EXPERIENCE

Freelance Developer | Jan 2024 – Present

- Delivered Python-based PDF automation for a legal firm, reducing processing time by 80%
- Built custom software solutions using Python and web technologies

IT Support Technician | Bowtracker Safaris, Antelope Park | Feb 2025 – Oct 2025

- Maintained critical IT infrastructure including computers, servers, and internet routers, ensuring low downtime and high productivity
- Performed network maintenance including WiFi optimization, software updates, and hardware upgrades (HDD to SSD replacements)
- Repaired APEX and Pastel servers; implemented data backup procedures for smooth business processing
- Installed and maintained CCTV systems; resolved client gadget issues ensuring service satisfaction
- Inspected and maintained IT cabling infrastructure from tower to destination points

EDUCATION

Bachelor's Degree in Information Systems (Pending) | Midlands State University | 2023 – 2026

Advanced Level | Mushandike High School | 2021 – 2022
3 Passes: Mathematics, Geography, Statistics

Ordinary Level | Dorset Secondary School | 2017 – 2020
7 Passes including Mathematics and Science

PROJECTS

Confidential Agricultural Project(Final Year Project)

- Mobile-based solution addressing a US\$1.2 billion problem in Zimbabwe's agricultural sector
- *Details available upon request under NDA*

Nandoz Odds Pro – AI Sports Prediction System (In Development)

- Reinforcement learning-based system using self-improving rules for prediction
- Tech: Python, Reinforcement Learning, Pandas

Legal Document Processing System

- Automated PDF processing reducing manual time by 80%
- Tech: Python, PyPDF2

SKILLS

Category	Skills
Programming	Python, SQL, JavaScript, HTML/CSS
AI/ML	Reinforcement Learning, Predictive Analytics, Data Mining, Scikit-learn, Pandas
Frameworks	Django, Flask, React
Databases	PostgreSQL, SQLite, MongoDB

Category	Skills
Mobile	USSD Integration, SMS Gateways
Infrastructure	Networking, Git, GitHub Pages, Docker (basic)
Soft Skills	Problem-solving, Communication, Client management, Self-motivation, Attention to detail,Collaboration
Methodologies	Agile, SDLC, System Analysis

LANGUAGES

- English
- Shona

INTERESTS

- Machine Learning & AI
- Chess
- Football (Soccer)
- Agriculture
- Reading Tech & Business Articles
- Project Management
